Announcing Increased Internet Service Speed

Dear Valued AZCI.net Customers and prospective customers:

Today, AZCI.net is announcing the expansion of our network increasing the capacity of the network to 28 megabits. Available User Speeds will be up to 7 megabits. **FIVE** new service plans will be offered, beginning on or about March 1, 2006, one for each budget and speed requirement:

Service Plan	Bandwidth	Monthly Fee	Equipment Fee	Min. Term
Bronze	512k	\$29.95	None	3 months
Silver	1.5 megs	\$39.95	None	3 months
Gold	3.0 megs	\$49.95	None	3 months
Platinum	5.0 megs	\$59.95	None	3 months
Titanium	7.0 megs	\$69.95	\$99.95	3 months

In appreciation for existing customer's past support and business loyalty, we are pleased to advise you that existing customer service plans will be migrated to the corresponding new enhanced speed plan without charge effective the date of inauguration of the new service.

If you choose to migrate to our new Titanium service, we will be replacing your wireless equipment (on your roof) with equipment capable of supporting 7.0 Megs **now!** and more, as much as 15 Megs, "down the road in the not to distant future".

As always, you can count on AZCI.net to provide you with 24 x 7 support and email accounts at no additional charge. As many of you know, we also provide available on-site support at your home or business when you require it for a modest hourly fee. Technicians, resident in Arizona City and Casa Grande, are readily available.

Between now and the service inauguration date, we will be completing already in-progress network upgrades to support the new higher speeds. If you have any questions about the new services or your account, please do not hesitate to contact us at info@azci.net or 866-701-FAST (3278).

Thank you for being our customer. You can count on AZCI.net to bring you the fastest Internet service at the best price with simply the best, world-class support!
